Developmental Psychobiology

The Journal of the International Society for Developmental Psychobiology

EDITOR-IN-CHIEF

William P. Smotherman, Department of Psychology, Binghamton University—SUNY, P.O. Box 6000, Binghamton, NY 13902-6000

ASSOCIATE EDITORS

Donald J. Stehouwer, Department of Psychology, University of Florida, Gainesville, FL 32611-2250

Steven S. Robertson, Department of Human Development and Family Studies, Cornell University, Ithaca, NY, 14853-4401

Developmental Psychobiology is a peer-reviewed journal that publishes original research papers from the disciplines of psychology, biology, neuroscience, and medicine that contribute to an understanding of behavior development. Research that focuses on development in the embryo/fetus, neonate, juvenile, or adult animal and multidisciplinary research that relates behavioral development to anatomy, physiology, biochemistry, genetics, or evolution is appropriate. The journal represents a broad phylogenetic perspective on behavior development by publishing studies of invertebrates, fish, birds, humans, and other animals. The journal publishes experimental and descriptive studies whether carried out in the laboratory or field.

The journal also publishes review articles and theoretical papers that make important conceptual contributions. Special dedicated issues of *Developmental Psychobiology*, consisting of invited papers on a topic of general interest, may be arranged with the Editor-in-Chief.

Developmental Psychobiology also publishes Letters to the Editor, which discuss issues of general interest or material published in the journal. Letters discussing published material may correct errors, provide clarification, or offer a different point of view. Authors should consult the editors on the preparation of these contributions.

Overall scholarship including soundness of experimental design, appropriate controls and procedures, and importance and significance are the major criteria for publication.

Developmental Psychobiology is the official publication of the International Society for Developmental Psychobiology. Membership in the Society is not a prerequisite for submission or publication.

Editorial Production, John Wiley: Alyson Linefsky

Developmental Psychobiology (ISSN: 0012-1630) is published eight times per year (in January, March, April, May, July, September, November, December), one volume per year, by John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158. Copyright © 1996 John Wiley & Sons, Inc. All rights reserved. No part of this publication may be reproduced in any form or by any means, except as permitted under section 107 or 108 of the 1976 United States Copyright Act, without either the prior written permission of the publisher, or authorization through the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923; tel (508) 750-8400; fax (508) 750-4470. Periodicals postage paid at New York, NY, and at additional mailing offices. The code and the copyright notice appearing at the bottom of the first page of an item in the journal indicate the copyright holder's consent that copies may be made for personal or internal use, or for the personal or internal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 or 108 of the United States Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests and other permission inquiries should be addressed to Permissions Dept.

Subscription price (Volume 29, 1996): \$568.00 in US, \$648.00 in Canada and Mexico, \$692.00 outside North America. All subscriptions outside US will be sent by air. Payment must be made in US dollars drawn on a US bank. Claims for undelivered copies will be accepted only after the following issue has been received. Please enclose a copy of the mailing label. Missing copies will be supplied when losses have been sustained in transit and where reserve stock permits. Please allow four weeks for processing a change of address. For subscription inquiries, please call (212) 850-6645 or e-mail: SUBINFO@wiley.com.

© This paper meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper).

Postmaster: Send address changes to *Developmental Psychobiology*, Susan Malawski, Director, Subscription Fulfillment and Distribution, Subscription Department, John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158.

Advertising Sales: Inquiries concerning advertising should be forwarded to Susan Levey, Advertising Sales, John Wiley & Sons, 605 Third Ave., New York, NY 10158. Tel: 212-850-8832. Advertising Sales, European Contact: Michael Levermore, Advertising Sales Manager, John Wiley & Sons, Ltd., Baffins Lane, Chichester, Sussex PO19 1UD, England.

Reprints: Reprint sales and inquiries should be directed to the customer service department, John Wiley & Sons, Inc., 605 Third Ave., New York, NY 10158. Tel: 212-850-8776.

Other Correspondence: Address all other correspondence to: *Developmental Psychobiology*, Publisher, Professional, Reference, & Trade Group, John Wiley & Sons, Inc., 605 Third Ave., New York, NY 10158.

Manuscripts should be submitted to the Editor-in-Chief or one of the Associate Editors. Detailed information for contributors appears in the first and last issue of each volume.

The contents of this journal are indexed in the following: *Biological Abstracts*, *BIOSIS*, *CABS (Current Awareness in Biological Sciences)*, *Chemical Abstracts*, *Child Development Abstracts and Bibliography*, *Current Contents/Life Sciences*, *Excerpta Medica*, *Index Medicus*, *Psychological Abstracts*, *Psychological Reader's Guide*, *Research Alert (ISI)*, *Science Citation Index (ISI)*, and *SCISEARCH database (ISI)*.
